Mostly just to see what other people do and see if there are a few tricks that I can gleam and apply to my own work. RARELY have I ever wanted to make a project from a book like this, I am normally only interested in a few techniques. Not this time... This book is so fun and the projects are GORGEOUS! I want to make it all.. Even her color selections are wonderful.Sometimes when I make large beaded pieces.. Or at least try... I get board to tears before I ever finish them. But this technique is so fresh and different. You

get to make these adorable tiny beaded pieces then join them all together in a simple and fun way. So you get that cool sense of completion like 20 times during the creation instead of just winding down into boredom. I would totally recommend this book for anyone interested in beading and wire work.. And anyone with ADD...

Teresa Meister's fine-scale wirework provides structure, and her beaded patterns bring on the color! Colorful seed beads, pearls, and crystals are used to create delicate jewelry components. Now link all these components together with wirework connections including wire loops, chain, and jump rings. The results are thirteen jewelry sets (each set includes a necklace, bracelet, and earrings) plus variation ideas giving readers a lot of options for exploring techniques. All jewelry makers will find this wearable jewelry to be classy and timeless.
