This series of cross-stitch chart books brings together the work of your favourite cross stitch designers. Each title in the series contains 10 pages of charted cross stitch designs on one popular subject. Every chart includes an easy-to-use key, and an inspirational colour photograph of each finished piece shows the fantastic results to be achieved. Each chart book also provides handy stitching tips and advice, stitch diagrams, guidance on techniques and materials, and a thread conversion chart to ensure you have all the information required to complete every design featured. Wolves and bears are beautiful creatures with details that are fascinating to stitch. A family of brown bears fish in the river and enjoy the treat they have caught, while another bear is detailed in a magnificent portrait. A second portrait brings us face to face with an amazing amber-eyed wolf. Finally a coyote howls dramatically at the sky in front of a moonlit landscape, framed by a Native American style border.
