Now they are grown and I am expecting a grandson in August so I decided to sew for my grandson and realize that I lost the book. So I now have to buy the book again so that I can cross stitch for my grandson. There are great patterns inside.0 of 0 people found the following review helpful. adore this oneBy Joya Roythis might be my favorite Ondori cross stitch book from the 70's. it has so many sweet designs! so colorful and bright. flipping through the pages gets my mind whirring with ideas for how i could use them. highly recommend!0 of 0 people found the following review helpful. It's okayBy dixieannI really love Ondori designs, but this book just isn't that great. I have a collection of Ondori, they are really great designs but this book was just not up to par.
