**Marie Barber : Cross-Stitch Florals** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cross-Stitch Florals:

0 of 0 people found the following review helpful. pretty stuffBy Kathy UderSome very pretty stuff. Will be using them.0 of 0 people found the following review helpful. Five StarsBy sandreregangreat designs5 of 5 people found the following review helpful. Whats all the negative fuss about?By A CustomerI thought this book was very interesting when I got it. There are really unusual floral designs. They want you to work them as a grouping. Sure, you have to use your imagination on the end result, but so what. I would rather have more graphs then pages of talk and pictures. Really unusual, classy, designs. Vases, realistic flowers, unusual animals and borders. I think some of these will be good for a man and his office. And we know how hard it is to find mens designs.

From lush African foliage to bright Dutch tulips, cultivate cross-stitch gardens of flowers around the world. Color photographs display the designs on cushions, bolsters, wall hangings, samplers, and other beautiful items. You'll love the thrill of armchair travel with needle and floss. Just Cross Stitch.
