Lucy Berridge : Gift Wrapping before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gift Wrapping:

0 of 0 people found the following review helpful. UnhappyBy 80s childhoodThis was the worse book I have ever ordered. Could have done better on my own. Not much help with ideas of gift wrapping that I didn't already know20 of 21 people found the following review helpful. Pretty to look at, but not too instructional...By IzzieThe pictures were pretty. The overall design of the book is appealing. The photographs of different ways to wrap various items are beautiful and clear. But there's very limited instructions in the book. Only the last few pages contained gift wrapping instructions. The instructions were clear and included unique ideas on how to wrap a cylinder and book. The instructions also showed different ways to tie ribbons on gifts. There are gift decoration ideas for holidays like Mother's Day and has ideas on how to wrap gifts for men. The first few pages discusses the kind of gift wrap paper and decorative materials can be used for gifts. Overall the book book contains photographs that will inspire you on how to make your gifts beautiful and creative.

Hundreds of wrapping ideas that range from the irresistibly pretty to the minimally chic. The first section contains a wealth of sparkling suggestions for choosing wrapping paper and adding trimmings and embellishments, often in unexpected ways.

About the AuthorLucy Berridge is a freelance lifestyle and interiors stylist who began her career at Vogue and Harpers

Queen. She now works with a number of magazines including the Daily Mail's You magazine, Homes Gardens, House Garden, Tatler, Glamour, and InStyle.
