**From Greenberg Pub. Co. : Greenberg's American Flyer Catalogues, 1946-1955** before purchasing it in order to gage whether or not it would be worth my time, and all praised Greenberg's American Flyer Catalogues, 1946-1955:

In 1946 Gilbert made a bold, new foray into the toy train market with its exciting line of American Flyer S Gauge trains with scale proportions and realistic two-rail track. Always clever, A. C. Gilbert realized that he could succeed only by competing on his own turf. Here, then, is the EXCITING saga of AMERICAN FLYER S GAUGE TRAINS as seen through the company's most important spokesmen-the colorful postwar catalogues. If thoughts of powerful locomotives and action-packed operation still excite you, this is the book to rekindle your fondest childhood memories.
