By wogan 'Grow Herbs' is probably one of the better all-encompassing books on herbs, with the exception of growing herbs indoors. You can use the height and spread and sunshine information to grow some herbs indoors, but this is really an outside garden herbal book. It gives a very clear detailed informative beginning with a discussion of What is an herb?, managing herbs in a natural way, planning the garden. There is in depth information on soil analysis, preparing and designing the beds, herbs in containers (outside), compost, propagation, the different seasons, harvesting. Pictures are clear and in colour and usually there are several for each herb. The section on herbs themselves, gives a bit of background information on each, how to grow, propagation, site, maintenance, harvesting and how to use. A section on herbs in the kitchen is included, including some recipes and one on using herbs in the home, with clear concise instructions. An index is also incorporated. Anyone wanting to grow and use herbs, no matter if they are a beginner or a more experienced gardener

would certainly benefit by using this book.0 of 0 people found the following review helpful. Excellent book. I have an herb farm and this ...By Penelope BeacheExcellent book. I have an herb farm and this book was a perfect addition to our library collection.

Packed with practical horticultural advice as well as inspirational recipes and projects, *Grow Herbs* will encourage new gardeners to make herbs a part of their garden design, and shows experienced herb-growers how their plants can be put to use in the kitchen and around the house.

Jekka is amazing... she is the queen of herbs! Jamie Oliver A handsome handbook from the queen of herbs, which supplies necessary facts and useful advice in a friendly format with informative illustrations. The Times A handsome handbook from the queen of herbs, which supplies necessary facts and useful advice in a friendly format with informative illustrations. The TimesAbout the AuthorJekka McVicar has been dubbed the "Queen of Herbs" by Jamie Oliver. Her passion for herbs started in early childhood and in 1987 Jekka established Jekka's Herb Farm, producing herbs for mail order. She is the author of DK's *New Book of Herbs*.
