Angela Price : Grow. Snip. Shake. Sip.: Crafting A Cocktail Garden before purchasing it in order to gage whether or not it would be worth my time, and all praised Grow. Snip. Shake. Sip.: Crafting A Cocktail Garden:

0 of 0 people found the following review helpful. Helpful, handy guideBy D. ChantlerThis is a delicious read for many reasons. It's both a gardening guide AND a cocktail "cookbook." I mean, how cool is that?!? The photos and illustrations support the content so well. This book builds the reader's confidence level (particularly if they aren't green thumbs) to the point where they think that perhaps they can cultivate a cocktail garden in there home somewhere (patio garden, indoor garden, etc.). I have a wedding to go to in October. My gift will be this book and some fun

barware and glassware (I'm thinking those darling handled cups for Moscow Mules).0 of 0 people found the following review helpful. Five StarsBy TV CopGreat book

Have you always wanted to grow your own vegetables, fruits, and herbs but didnt know where to start? Are you a passionate home chef who would love to add cocktails to your repertoire? Do you love to entertain family and friends and are looking for new ways to be creative? Welcome to Grow. Snip. Shake. Sip. This book will -Give you the easy and fun steps to craft a cocktail garden full of herbs, vegies, and fruit even if you have a small space or minimal gardening experience. -Help you assemble a home bar with all the essentials (no need to serve your guests with red plastic frat house cups). -Provide you with the most delicious and easy to make garden inspired cocktail recipes that will make you the host(ess) with the mostess.
