Pamela Thompson : Hairpin Crochet before purchasing it in order to gage whether or not it would be worth my time, and all praised Hairpin Crochet:

Good text, bad photos.By LilahThis book has detailed written instructions for hairpin lace, but the photos are terrible(white thread is washed out in most of the BW photos, showing no contrast between stitches, many photos look like indistinguishable blobs) and the illustrations are crudely drawn. This is also not a beginner's book, you must already know how to do basic crochet before using this book as it does not cover basic stitches and techniques at all. I only recommend this book if you already know what you are doing and just want some more "advanced" design ideas, and can find a copy cheaply.6 of 7 people found the following review helpful. It 's a good book !!By A CustomerThis book introduce the techniques in details. The writting instructions are very clear. I am strongly to recommend you to read if you like hairpin crochet ! But unfoturnately this book is out of print for several years.
