Anne Thoumieux : Hairstyled: 75 Ways to Braid, Pin Accessorize Your Hair before purchasing it in order to gage whether or not it would be worth my time, and all praised Hairstyled: 75 Ways to Braid, Pin Accessorize Your Hair:

0 of 0 people found the following review helpful. This has a lot of great ideas and lots of picturesBy alasBabylonThis has a lot of great ideas and lots of pictures. Please read and get rid of the "claw", it makes women look like they have given up.4 of 4 people found the following review helpful. This was a great book visually helpful and full of ideasBy RavenB28Y'all, are any of you super into hair and makeup? Yeah no, me either. I'm gonna be honest and tell you that I can rock a bun and sweat pants and call it good. But, I have daughters; gasp! Yup and one is just like me and the other, not so much. She is constantly watching YouTube videos and trying to figure out how to do new styles. Essentially I decided to request this book to review from Bloggingforbooks.com for her. It would be a win, win she could read it do her hair and the world would be at peace again and maybe I could get my ipad back. Well I was enthralled. I opened

the book and learned quite a few things that I hadn't ever seen before. I'm all for easy and fast way to get ready and this book made some beautiful hair styles look fast and easy. So of course I had to try them out because we've done a few hair styles in our home that were advertised as "fast and easy" but the phrase false advertising doesn't even begin to cover it. We were able to mark pages that we wanted to go back to and flip through in the morning before school to get creative ideas. This book is so great and I love the example pictures. Negatives: Some of the hairstyles don't show the front of the hair. That is so difficult for me because I have a hard time figuring out how the front is suppose to look. I know that could sound really silly to some people but I'm a visual learner and so this isn't helpful to not see the front. Often times I will just ignore or skip the hairstyle all together if it doesn't have a picture of the front of the hair. Positives: I personally have curly hair. It's not the easiest to find cute curly hairstyles and this book did focus on curly hair. Having it's own section made it easy to bookmark so that I can easily go to that section. I do straighten my hair on occasion so it was nice to see all of the straight hairstyles as well; it was a good balance. Great table book as well. I'm grateful to bloggingforbooks.com for being able to receive this book for my honest review. 3 of 3 people found the following review helpful. Unfortunately disappointing. By OceanDreamer From buns to braids to headbanded hairstyles, learn how to achieve you next look in five steps or less! You'll also find technique for short, medium and long hair, as well as straight and curly. And don't forget hair for that special night out! Each hairstyle is given a level of difficulty rating, tools needed, written instructions as well as full color step by step photos. So grab a brush and start styling! As a hairstylist, I'm always looking for new ways to reinvent mine or others looks. I was hoping this book would help me do so. Unfortunately I'd realistically use very few of these ideas. While it may be a helpful resource for the person who has absolutely no knowledge of hairstyling In general, for me it was just kind of blah. I felt some hairstyles didn't bear instructions, nor the attention to even be in the book. They looked sloppy and juvenile considering the targeted audience. The idea of few instructions is nice, but depending on the skill level, it feels like in a lot of the styles some instruction is left out altogether. Overall, I think there are a few styles I can use, the other dated and otherwise uninspiring ones I can do without. If I were to recommend this book I would say I'd give it to a young girl (not young woman like the book implies) one who likes to try out new ideas on her self or other young friends. I received this book from the publisher in exchange for an honest review.

Spruce up any outfit with your best accessory your hair! You dont need to be a professional to get show-stopping hair. *Hairstyled* presents 75 deceptively simple techniques for creating your favorite high-fashion hairstyles.
