Jacqui Atkin : Handbuilt Pottery-Techniques before purchasing it in order to gage whether or not it would be worth my time, and all praised Handbuilt Pottery-Techniques:

Takes the mystery out of handbuilding by showing precisely what happens at each point in the process, using coil, slab, mould and pinch techniques, demonstrated in clear step-by-step photographs. Unique cutaway photographs show correct hand positions for controlling the clay, demonstrating the effect simultaneously on the form's inner and outer surfaces. Simple, creative projects clearly illuminate all basic techniques, enabling you to create bowls, vases, pots, lidded dishes and figurative forms with confidence and style.
