A. S. Mott : Haunting Fireside Stories before purchasing it in order to gage whether or not it would be worth my time, and all praised Haunting Fireside Stories:

0 of 0 people found the following review helpful. Good, but long stories. Maybe not best for campfiresBy JDRangerI liked these stories. Some of them actually went beyond simply trying to be creepy (scary) and make you think.Of course, that's not good news if you want fun stories to spook the kids at campfire time.The stories are are rather long

so they have more substance but they are not really very fitting for actual fireside scares. Many of them require more than 15 minutes of time. Kids tend to stop paying attention after a few minutes and I've generally lost them completely by mid story. From an adult perspective I really enjoyed each of them. 0 of 0 people found the following review helpful.
Product Review By Jeremy E. I thought the stories were very entertaining. There were no pages missing and the front cover is in good shape. A great buy!!!

Snuggle up in your chair and get ready to explore a strange and exciting world in volume 2 of Fireside Ghost Stories. A beautiful young widow is shocked to learn, upon her own accidental death, that her late husband has chosen to spend his afterlife haunting other women... /a group of cynical contestants on a reality game show wander through a haunted insane asylum, completely unaware of what is happening to the show's crew...
