Monica Moran Brandies : Herbs and Spices for Florida Gardens: How to Grow and Enjoy Florida Plants with Special Uses before purchasing it in order to gage whether or not it would be worth my time, and all praised Herbs and Spices for Florida Gardens: How to Grow and Enjoy Florida Plants with Special Uses:

0 of 0 people found the following review helpful. Rely on this if you actually grow herbs and spicesBy museonI grow a lot of herbs for my cooking and find this book a good reference. It is specific, rather than just general. I borrowed it from the library and then purchased it as a keep it reference. I like the way it tells you the best way to preserve herbs.0 of 0 people found the following review helpful. Great product and deliveryBy Carolyn MeekerGreat product and delivery. I wish that the text was more visually pleasing (color pictures) but it is as described. The binding is a bit messed up, but I bought it used, so that's not a problem.I love that the book suggests places to go to see herb/spice gardens, such as Mounts Botanical Garden and suggests combinations, such as "potpourri or craft garden" and "insect repellent garden".0 of 0 people found the following review helpful. Every disappointed. The book looks like it was dropped in ...By Lady AbigailEvery disappointed. The book looks like it was dropped in water. Pages with ink on them and cover is not even attached to the book. I don't mind used but this is not in good condition but very poor. See pictures.
