Has to the point illustrations .0 of 0 people found the following review helpful. great information but...By AceThis book has a lot of greatInformation about Damascus blades and how to get some of the patterns but is in need of some more pictures as some of the descriptions are not as detailed and may confuse some as to which way the metal should be turned or rolled. All in all not a bad book for less that 4 dollars0 of 0 people found the following review helpful. Wow!!By pierceweldingWhat an informative book! Even for someone who has been welding for 20+ years! I'm looking forward to making my first knife!

American Bladesmith Society master smith Rick Dunkerley lights the mosaic-damascus fire, recommending steels and explaining the forge welding process, as well as steel stacking, pattern making, finishing and much more. Dunkerley includes diagrams and how-to sidebars on mosaic damascus patterns.
