Handy little overviewBy Marc SeversonThis book is a good tool for people who have a basic understanding of and some familiarity with prehistoric ceramics. I would recommend it to avocational archaeology buffs and professionals.0 of 0 people found the following review helpful. HohokamBy kenny turnerVery simple booklet on the hohokam. I was expecting much more but didn't get deceived by the description, I just didn't read it through.0 of 0 people found the following review helpful. just not what I was hoping forBy D.

A Guide to Hohokam Pottery displays these ancient ceramics for the non-specialist. Bright, clear photographs face brief text detailing what these pots tell us about the hands that made them and the culture those hands built.
