**James Kavanagh, Waterford Press : House Garden Pests: How to Organically Control Common Invasive Species (A Pocket Naturalist Guide)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised House Garden Pests: How to Organically Control Common Invasive Species (A Pocket Naturalist Guide):

Earwigs, silverfish and blood-sucking bedbugs are just a few of the species this guide will help you to identify and control in your home and garden. This beautifully illustrated guide highlights over 75 species of wood chewers, blood suckers, garden wreckers and food pests ranging from cockroaches and slugs to your neighbor's pets. Also includes information on good bugs that feed on household pests. Laminated for durability, this handy guide is an ideal source of portable information and ideal for use by novices and experts alike. Made in the USA.

About the Author Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution. With 650+ titles in print and 6.5 million copies sold, Waterford Press publishes the largest line of folding-format reference guides in the industry. Our mission is to connect people to the natural world by making knowledge about wildlife identification, outdoor recreation, travel, and safety and survival skills accessible to a wide audience.
