Leisure Arts : How to Arrange Dried Florals If You Think You Can't (Leisure Arts Craft Leaflets) before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Arrange Dried Florals If You Think You Can't (Leisure Arts Craft Leaflets):

1 of 1 people found the following review helpful. Some good ideas, over-done and off balance.By Real ReaderThere are some good project-ideas in this book but for me the results are unattractive, overloaded with flowers and accents and not balanced. I would not want to make very many of these as shown although there are helpful tips on "how to" that I can use. I was disappointed.0 of 0 people found the following review helpful. The ultimate book on how to arrange dried floralsBy A CustomerThis is a wonderful book! If you only want one book on dried floral arranging this is the one to have. Whether you are just starting out or have been doing floral crafts for years, this book offers plenty of projects (over 90) to create or to be inspired by and in typical Leisure Arts fashion, each project is beautifully

illustrated with colored photographs of both the projects and the step-by-step instructions. 0 of 0 people found the following review helpful. Worth having on the shelf! By A Customer Even if you are familiar with drieds, this book stimulates your imagination with new ideas. Many ranges of ideas--great for making wreaths and other gift items for those whose taste differs from yours. Can also be used like a "cookbook" with great results.
